THE NEXUS WILL HOUSE

**A RED CIRCLE
HEADQUARTERS**

A Red Circle will continue to provide services to meet the immediate and long-term needs of North County residents from this new central location. North County Nexus will foster collaboration and synergy among the services, driven by the community's vision.

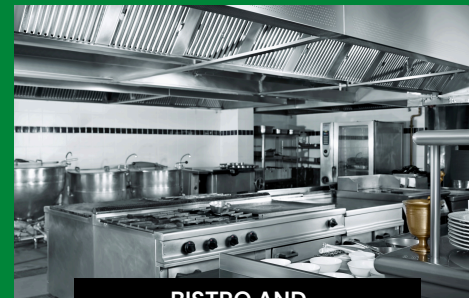

The store will offer household staples, plus locally grown, chemical-free produce; bulk spices and dry goods; fresh bread; healthy snacks; locally made soups, jellies and sauces; and locally sourced dairy, meat, and seafood.

**LEARNING AND
OPPORTUNITY CENTER**

North County Community Nexus will bustle with educational opportunities for the young and the old. A Red Circle and like-minded, co-located civic organizations will host life-building training on topics including health, nutrition, economic development, and safety.

**BISTRO AND
COMMERCIAL KITCHEN**

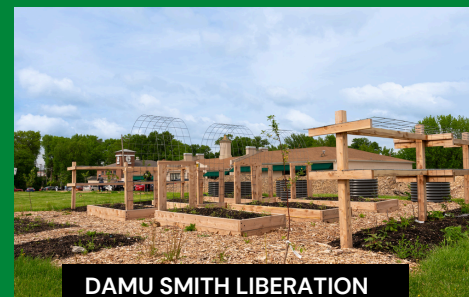

Residents will enjoy fresh, healthy foods made by local chefs. This will be a space for community members to gather and have a nourishing meal.

A production kitchen owned and operated by a cooperative business of value-added producers. You will find their products inside People's Harvest and other independent retailers throughout the St. Louis region. Cold storage for the producers and farmers will also be available.

**BUSINESS
INCUBATOR**

Entrepreneurs who share A Red Circle's mission of economic and community betterment will be invited to lease space at North County Community Nexus. The goal is to foster collaboration and synergy among the services, driven by the community's vision.

**DAMU SMITH LIBERATION
GARDEN**

Residents also are welcome to grow plants, fruits, and vegetables. They will work along side local urban farmers to learn about producing their own food.
